DEPARTMENT OF COMMERCE WITH COMPUTER APPLICATIONS

About the Department:

The department of commerce with computer Applications was started with an UG programme B.Com(CA) in the year 2017. The Department of Commerce with Computer Applications aims to integrate commerce and technology, equipping students with skills in business, finance, and IT. It focuses on practical learning in accounting, taxation, and financial management while enhancing technical proficiency in programming, databases, and e-commerce. The department prepares students for careers in banking, finance, and IT by fostering innovation, entrepreneurship, and data-driven decision-making. It also promotes research in digital transformation and automation while instilling ethical and professional values.

Vision:

"To empower students with a dynamic blend of commerce knowledge and computer application skills, fostering innovative, tech-driven professionals ready to thrive in the digital economy and shape the future of business."

Mission:

To provide a comprehensive education that integrates core principles of commerce with practical computer application skills, enabling students to analyze, innovate, and lead in modern business environments. We aim to nurture ethically responsible, technologically skilled, and entrepreneurially minded graduates who can contribute meaningfully to the digital transformation of global commerce.
